Profile Summary

Ambitious Computer Science undergraduate experienced in **MERN Stack and Java with Spring Boot development**. Proficient in creating **responsive, high-performance** full-stack applications with **secure backend** architecture and **well-structured databases**. Seeking a Software Engineering Internship to contribute technical expertise and innovative thinking to impactful software projects.

Technical Skills

- **Languages:** Java, JavaScript, TypeScript, Python, SQL
- **Frontend:** React, React Native, HTML, CSS, Tailwind CSS, Bootstrap
- **Backend:** Spring Boot, Spring Security, Node.js, Express, Hibernate ORM
- **Databases:** MySQL, MongoDB
- **Tools & Platforms:** Git, Docker, Firebase, MongoDB Atlas, Vercel, Maven
- **Architecture & Security:** RESTful APIs, JWT, Socket.io

Project Experiences

1. LearnLoop| Learning Management System Sep 2025

- Developed a **Java, Spring Boot** web application using **MVC** architecture and **MySQL**.
- Implemented authentication and CRUD operations for efficient pet and owner management.
- [Source Code on GitHub](#)

2. Car Rental | Full-Stack Car Rent System Dec 2025

- Developed a scalable **MERN stack** web application using **TypeScript** and **RESTful APIs**.
- Implemented secure **JWT authentication** and optimized **MongoDB** queries for performance; deployed on **Vercel**.
- [Source Code on GitHub](#)

3. ServiceCenters | Cross-Platform Mobile Queue Management System Jan 2026

- Built a **React Native** mobile application with **Firebase** authentication and real-time data synchronization.
- Implemented smart budgeting features and deployed the app using Expo Application Services (**EAS**) with Firebase backend.
- [Source Code on GitHub](#)

4. Vitality Health (VCI) | Healthcare Data Analytics Jan 2026

- Processed and analyzed clinical datasets using **Python** (Pandas) for patient risk identification.
- Created data visualizations using **Matplotlib** and **Seaborn** to support data-driven insights.
- [Source Code on GitHub](#)

Achievements

Finalist, Hackathon Coding Competition (2024) – Overnight intensive programming round.

Finalist, Industry-Level Circle-Edge (2025) – Selected for Grand Finals at Shangri-La, Colombo.

Education

Higher National Diploma (HND) in Computer Science, University of Bolton via IJSE | 2024–Present

G.C.E. Advanced Level – Physical Science Stream, Ananda Central College, Galle | 2022

G.C.E. Ordinary Level, St.Mary's College, Galle | 2019
